English
Upper Intermediate | B2

Experience

Freelance Mobile & Web Developer at Fiverr – Remote

January 2020 – Present

Java | Kotlin | HTML | CSS | JavaScript | Node.js | Rest API | MySQL | MongoDB | Bootstrap

I have taken up freelance development, using Fiverr's platform to advertise my Mobile and Web Development services. This not only exposed me to delivering high-quality projects and great improvement in my coding skills, but it also improved my customer communication and time management competence.

IT – Support at Multitipo Graphic Arts – Lisbon, Portugal

January 2020 – December 2020

Java | C++ | C# | HTML | CSS | JavaScript | Node.js | Rest API | MySQL | MongoDB | Git | GitHub | Scrum

I undertook an internship for a medium sized graphic arts company in the role of IT support. There I offered computer support in all areas, hardware and software, designed a maintenance schedule for each machine to always guarantee outstanding performance, and on top of that I developed software for different departments within the company to automate repetitive tasks and improve employee and company work efficiency.

Education

European University – BSc Computer Science

September 2018 – June 2021
